Office Action Summary	Application No. 10/583,857	Applicant(s) MARTINEZ, CHRISTOPHE	
	Examiner Guy G. Anderson	Art Unit 2883	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

- 1.1 This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Selection Element

Species A: A first embodiment of a selection element as shown in Fig. 2a-2c.

Species B: A second embodiment of a selection element as shown in Fig. 3a-3c.

Switch for Flow Chart 4A

Species C: A first embodiment of a switch as shown in Fig. 4b.

Species D: A second embodiment of a switch as shown in Fig. 4c.

Switch Flow Chart 5B

Species E: A first embodiment of a switch as shown in Fig. 5c

Species F: A second embodiment of a switch as shown in Fig. 5d.

Switch for Flow Chart 6B

Species G: A first embodiment of a switch as shown in Fig. 6c

Species H: A second embodiment of a switch as shown in Fig. 6d

- 1.2 Applicant is required, in reply to this action, to elect a single species from the group of Species A – B, AND a single species from the group of Species C -D, OR a single species from the group of Species E-F, OR a single species from the group of species G-H, for a total of TWO species to which the claims shall be restricted if no generic claim is finally held to be allowable. In other words, applicant must choose either species A or B, and applicant must choose one of the switch embodiments depicted in the figures corresponding to Species C-H. **The reply must also identify the claims readable on the elected species, including any claims subsequently added.** An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Art Unit: 2883

- 1.3 Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
- 1.4 The following claim(s) are generic: presently, no claim is considered to be generic.
- 1.5 The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species cited above contain mutually exclusive structural limitations for which no known unity of invention exists. A determination of patentability for any one of the disclosed species would not confirm patentability of any other disclosed species.
- 1.6 Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
- 1.7 The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
- 1.8 Any inquiry concerning this communication or earlier communications from the examiner should be directed to Guy G. Anderson whose telephone number is 571.272.8045. The examiner can normally be reached on Tuesday-Saturday 0900-2200.
- 1.9 If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Frank Font can be reached on 571.272.2415. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
- 1.10 Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For
